A New Grand President

Tops Off a Successful Conclave

Delegates Elect Petersen Grand President

In one of his last official duties as Grand President, John Hartman opens the 36th Grand Chapter Conclave.

The Conclave... jubilant...

...light-footed...

...and a "stroke" of fun!

From the first leadership workshop, to Grand President John W. Hartman's first rap of the gavel, through the final emotion-packed undergraduate Sunday Awards Dinner, the atmosphere at the Netherland Hilton Hotel was exciting and action-packed.

It was all too soon when brothers were packing and heading back to their home grounds. Memories, motivation, afterthoughts, and a certain rededication were surely packed up and taken back home as souvenirs of Sigma Phi Epsilon's 36th Grand Chapter Conclave.

Alumni and undergraduates from all corners of the nation made the journey to the festivities in Cincinnati... chapter delegates and alternates, various other chapter members, pledges, and colony members. Attendance at the 36th Conclave, held August 17-20, was the largest ever; with 850 registrants, 171 undergraduate chapters, 13 colonies, and five Alumni Chapters.

Golf Tournament

A total of 40 brothers covered the Jack Nicklaus Golf Course in the second Educational Foundation Conclave Golf Tournament. Low gross and low net winners, respectively, were: **Mark Allenspach** of Indiana Beta, Indiana University; and **Scott Averill** of Kansas Beta, Kansas State University.

Leadership seminars covered topics such as parents and alumni relations, fund-raising, rush programming, academic programming, and house management. Seminars also covered financial management, organizing and delegating, conflict resolution, career development, and chapter programming.

History Recapped

A special Conclave session was held on Saturday morning, which presented a "look at Sig Ep's past, present, and a commitment to the future."

Past Grand President **William A. MacDonald** and Dr. **R. Eric Weise**, along with National Housing Corporation Trustee **Lewis A. Mason**, presented the history of Sigma Phi Epsilon. Grand President **John Hartman** recapped the growth of Sigma Phi Epsilon during the last two years with the seating and presentation of new chapters chartered since the 35th Grand Chapter Conclave.

National Housing Corporation President **J. Russell Pratt**, Educational Foundation President **Jack D. Wheeler**, and Executive Director **Charles N. White, Jr.**, reviewed the Fraternity's present strength and commitment to the future.

New chapters (chartered since the last Grand Chapter in 1977) introduced and seated included: Alabama Epsilon, Auburn University-Montgomery; Virginia Lambda, Longwood College;

First Fraternity Foster Facility

Iowa State Brothers Become "Fathers"

By **Jeff Prouty**
Regional Director

Many young men have walked through the red door at Iowa State University (Iowa Beta chapter), but few have brought the combination of needs and complexities of Keith, Todd, and David. The Fraternity has served as a foster home to all three of these young men.

The experience of living in the Sig Ep house has always provided a meaningful structure: the idea of extending that structure to include a foster son was first tried four years ago.

George Belitsos, Executive Director of Youth and Shelter Services, in Ames, Iowa, first approached Iowa Beta with the idea in the fall of 1975. Youth and Shelter Services, which provides care and counseling for teen-aged youth, was seeking alternatives to institutions for troubled youngsters.

Iowa Beta accepted the challenge and subsequently became the first fraternity in the nation to receive a license as a foster home. The brothers welcomed Keith, a seventeen-year old Ames high school student, into their home. Craig Smith, President of the chapter, assumed Keith's guar-

dianship. The first year provided a learning experience, not only for Keith, but also for his sixty-five foster parents.

Personal finances, curfew hours, table manners, part-time jobs, and homework were just some of the parental concerns. Keith participated in all the fraternity's activities—serenades, work sessions, social functions, chapter meetings, meal crews, and others—with his age the only difference.

As a minor, he could not drink alcohol. The chapter stringently enforced this rule to ensure both Keith's safety and the future of the program.

Keith played defensive cornerback for the high school football team, so the chapter set Friday nights aside to cheer him on. Living in the fraternity home, and having so many people "pulling for him," really helped boost Keith's self-esteem. As George Belitsos said, "Keith became much more popular at school because he had all these college buddies. That's what he needed: friends."

Because a foster child had never lived in a fraternity before, Keith's year at Iowa Beta was a test case. At times, Keith needed reprimanding or

disciplining. Homework sometimes went unfinished and curfews were occasionally violated.

Despite the typical parental problems, Belitsos, Youth and Shelter Services, and the State of Iowa Department of Social Services deemed the program a success. The chapter voted to continue the foster child program.

Belitsos says he has received over 50 letters from Greek chapters throughout the nation requesting information on developing such a program. "College students have a lot to give," Belitsos commented, "and can serve as outstanding role models for a young person."

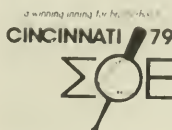

Before Todd, the second foster child, moved in (in the Fall of 1977), Jeff Prouty, Chapter President, and Jeff Hauenstein appeared in District Court to explain the chapter's feelings about being foster parents and what the fraternity had to offer as a home. Probation officers, social workers, the assistant county attorney, and local youth service workers all investigated

Appointments

"Communications" Seen as Key Concept

Adcock

Fenley

Condon

Louisiana-Mississippi

Sigma Phi Epsilon's National Board of Directors has appointed **Jeffery M. Adcock** as Governor of District 19 (comprised of the chapters in the states of Louisiana and Mississippi). Jeff is an alumnus of the Mississippi Beta (Mississippi State University) Chapter.

Upon his appointment to the position of Governor, Jeff stated, "The District system, in my estimation, is the best and most efficient method for coordinating efforts of the local chapters and the Headquarters Staff.

"When combined with periodic visits from the Regional Directors, it (the District system support of Alumni Boards and Chapter Counselors, coordinated through the District Governor) allows the Headquarters to be fully informed of the activities of the local chapter and the alumni activities within the District.

"This communication and coordination are essential if we are to be efficient in striving to reach our potential."

The National Board of Directors and

the Headquarters Staff are most confident Jeff will provide the effective coordinating and communication link in District 19. Presently, there are two chapters and a colony in District 19, but plans are underway for recolonization at the University of Mississippi and colonization at other sites in District 19. As District Governor, Jeff will play a most vital role in these efforts.

As an undergraduate, Brother Adcock held the chapter office of Controller and was Mississippi Beta's delegate to the 33rd Grand Chapter Conclave in Denver, Colorado. Since graduation, Jeff assisted in the formation of the Mississippi Beta Alumni Club and has been a consistent patron of the Mississippi Beta Housing Fund.

Brother Adcock is employed by the Mississippi Motor Vehicle Comp-troller's Office as Director of Accounting and Auditing. Jeff lives in Jackson, Mississippi, and will marry Suzanne Mills this fall.

Kansas-Nebraska

David A. Fenley has been appointed Governor of District 20, which includes the eleven chapters in Kansas and Nebraska. Dave is an alumnus of the Kansas Delta (Washburn University) Chapter.

As an undergraduate, Brother Fenley held the chapter offices of Alumni Relations Chairman, Scholarship Chairman, Assistant Controller, Vice President, and President. At the 1975 Grand Chapter Conclave of Sigma Phi Epsilon, Dave was elected to the National Board of Directors as a student member, where he served from 1975 to 1977.

Upon completion of his undergraduate degree at Washburn University, Brother Fenley went on to receive his law degree at the Washburn Law School. Since graduation from law school, he has been employed by Arthur Young and Company in Kansas City, Missouri, as a tax consultant.

In his application to the Board of Directors for appointment as Governor, Brother Fenley stated, "I feel the heart of Sigma Phi Epsilon's success

lies with its District system. The system, when operating properly, provides an efficient chain of responsibility and support, as well as an effective communication tool between the undergraduate chapters, vital volunteer alumni, the Headquarters Staff, and the National Board of Directors.

"From an operational standpoint, I feel I will devote the necessary time and communication with chapters, area alumni officials, Headquarters Staff, and national officials, to allow the system to work properly."

Colorado-Utah

Kevin P. Condon has been appointed Governor of District 22 (Colorado and Utah). As an undergraduate member at Kansas University (Kansas Gamma, '66), Kevin served as Co-Alumni Relations Chairman, Chapter Songleader, and President. After graduation, he served as the Assistant Editor to the "Kansas Gammarama" (alumni newsletter) and as the Chapter Alumni Advisor.

Brother Condon works for Geo-Data Corporation as the Rocky Mountain Division's Regional Manager and lives with his wife, Glenda Gay, and his two daughters, Carrie Claire and Sarah Elizabeth, in Denver, Colorado.

Upon his appointment to the Governor's position, Brother Condon related his belief in the fraternity experience.

"The framework of Sigma Phi Epsilon can provide an environment of positive values and ideals for college students. Away from home, the Fraternity provides a community of love and personal support which may ease the transition to independent adult life in a college student.

"As an undergraduate member of our Fraternity, I was inspired by the potential for development of good values and ideals which Sigma Phi Epsilon provided. As District Governor, I am in a position to strengthen and support the operations of the local undergraduate chapters and their endeavor to provide this good environment and positive influence in the lives of their members."

Hoke Turns Over Reigns

New Editor Appointed

The Sigma Phi Epsilon *Journal* is undergoing its eleventh change in Editors, with this issue. The new Editor is **Dean L. Woodbeck**, a 1978 graduate of Michigan Technological University, where he was a brother in the Michigan Eta Chapter. Brother Woodbeck served the Fraternity as Regional Director on the 1978-1979 Headquarters Staff and was promoted to Communications Director at Headquarters in June, 1979. He was appointed *Journal* Editor by the National Board of Directors at their August 16, 1979, meeting in Cincinnati, Ohio.

Dean Woodbeck succeeds **William L. Hoke, Jr.**, Editor of the *Journal* since May, 1975. Brother Hoke left the Headquarters Staff in July to pursue a career in university development and public relations at Southern Methodist University in Dallas, Texas.

Hoke

I want to express the Fraternity's deep appreciation to Bill Hoke for his unique contribution to the *Journal*, as its Editor for four years. He took us into the tabloid era with great skill and concern for a high level of communication for the 93,000 brothers who receive the *Journal* on a quarterly basis. He was also responsible for bringing together the Fraternity's total communications effort, with the *Journal* as its focal point, to better inform our brothers about the progress, concerns, and immediate issues facing Sigma Phi Epsilon. We are indebted to Brother Hoke for his excellent work.

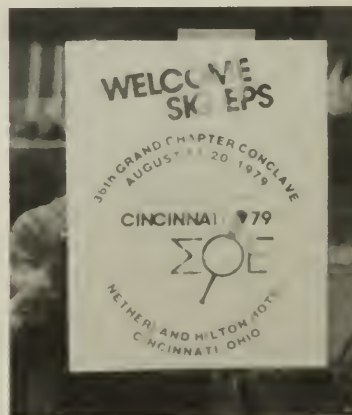

Woodbeck

Brother Woodbeck brings to the *Journal* his experience as an involved undergraduate, serving his chapter as President for the 1977-1978 academic year and serving the Fraternity as a Regional Director immediately after graduation. His experience in journalism is from the operational end, a two-year assignment as Editor of the Michigan Tech *Lode*. Dean's leadership abilities are reflected in his selection as the recipient of the J. Edward Zollinger Outstanding Senior Award for the Michigan District in 1978.

As we start a new academic year and a new volume of the *Journal*, I am confident you will be well informed about our dynamic Fraternity, as it enters an exciting time in its history. Sigma Phi Epsilon, today, has 234 active undergraduate chapters and colonies, and a total membership of 123,000. We are committed to keeping you up-to-date on all aspects of the Fraternity's operation. If you have any concerns, comments, or suggestions on how we can improve our communications, I hope you will write the Editor or the Publisher.

Fraternally,

Charles N. White, Jr.

Taking the Bull by the Horns

Recession, depression, speculation, economic fluctuation ... we read about them daily in the news. Business men and investors worry about their ramifications. **William A. Schreyer** (Pennsylvania State '48) has good reason to worry about our economy and investors' money. His livelihood depends on the former, and a lot of people who spend the latter call him "Boss."

As President of Merrill Lynch, Pierce, Fenner & Smith, Inc., Brother Schreyer runs the largest securities and investment firm in the United States. Through his position, he also holds the number three spot at the firm's parent company, Merrill Lynch & Company.

Brother Schreyer received one of eight Sigma Phi Epsilon Citations presented at the 1979 Grand Chapter Conclave in Cincinnati, Ohio. This prestigious award recognizes out-

standing work in an alumnus' chosen field.

"I really enjoyed the Conclave," Bill said. "It was great to see such enthusiasm, such a positive attitude, and respect for tradition."

At the Conclave, Bill attracted alumni and undergraduates alike, eager to talk about anything from his Fraternity experience to today's economic situation. He handled both subjects skillfully, with Sig Eps learning what Merrill Lynch employees already know: Bill Schreyer works well with people ... and people respect him.

"I joined the Fraternity in 1945," Bill said, "right at the end of World War II, when all of the veterans returned to school. Because of that, I learned to deal with older people."

"I learned a tremendous amount about getting along with different kinds of people. There were the older

guys ... the veterans I mentioned before ... and there were the guys who studied a lot, and those who were kind of wild."

From graduation day, at the tender age of 20, until his appointment as President, Schreyer has worked for Merrill Lynch. He entered as one of four in the first year of the company's junior executive training program. He called the program "a two year apprenticeship providing complete exposure to the whole company." The training included a month on the floor of the New York Stock Exchange, and a year delving into securities research.

The Air Force Reserve interrupted young Schreyer's career in 1955, taking him from his job at the Buffalo office to Weisbaden, Germany, the Air Force's headquarters in Europe. Even in the Air Force, Bill continued to ply his trade.

"It seems the Major General (at Weisbaden) found out I was an account executive," he reports. "He asked me to help him invest \$2,000. So, I chose what I thought was a 'safe' speculative stock, one that fluctuated between six and eight for the previous two years. Within three weeks, the General had more than tripled his money when that company was acquired by another firm at \$20 per share."

After a two-year stint in Germany, he returned to Buffalo. In 1962 and 1963, he completed Merrill Lynch's management training program in New York City. After managing the Trenton, New Jersey and Buffalo offices, Schreyer returned to the "Big Apple" as Sales Manager for the New York City Metropolitan Region in 1969.

"Sales is nothing more than talking to people, getting their confidence and their trust," Brother Schreyer relates. "I had to deal with older people when I started with Merrill Lynch in sales in Buffalo ... just like I had to deal with older men in the Fraternity. In the Fraternity, I was 17, and they were 22-24."

The Sales Manager position evolved into an appointment as Regional Vice President for the New York Metro Region in 1972. That year also saw Schreyer elected to the Merrill Lynch, Pierce, Fenner & Smith, Inc. Board of Directors.

His tenure as Regional Vice

President didn't last long, as Merrill Lynch & Company tagged him in 1973 to head their newly formed subsidiary, Merrill Lynch Government Securities, Inc. Under his direction, the company became one of the largest bond operations on Wall Street.

Three years later, his last stop on the way to the presidency of the brokerage subsidiary came as he accepted the position of Executive Vice President in charge of capital market activities. In this role, he handled all corporate and municipal financing, and equity and fixed income trading activities.

How does the President of Merrill Lynch see today's economy?

"Recession, and the lower inflation and interest rates that are likely to accompany it, augur well for the stock market. That combination has had a positive effect on the market in the past, and we expect that to be the case again ... probably in the next six to 12 months."

"On the average," he continued, "the stock market began to decline about eight months before the onset of each of the six post-World War II recessions. It reached a major low four to five months before the recession had ended. In most instances, the subsequent recovery in stock prices was prolonged and the rise substantial."

Historically, the prices for stocks reached excessively high values in the late 1960's and early 1970's. This accounts for the seemingly sluggish performance of today's market.

According to Schreyer, today's stocks have modest values, with high dividends that continue to rise. Combined with expected declines in inflation and interest rates, Bill and Merrill Lynch expect stocks will "become the best hedge against inflation in the '80's."

Now, the same trend in high valuation is occurring in collectables, like gold, art, and real estate. "Sooner or later," Brother Schreyer says, "investors will recognize that stocks represent ownership of real assets that are still available at a considerable discount to their inherent value. As one of the few—if not only—assets that have not appreciated sharply in the last 10 years, stocks are still among the cheapest assets available."

Volunteer Spotlight

Forming a new Sig Ep chapter, and dealing with the financial intricacies of buying and running a \$150,000 house, sounds like a full-time job. But, **Tim Graff** (Missouri-Rolla '74), Chapter Counselor at the recently installed Minnesota Alpha Chapter, has spent his "free" time doing just that for four years.

Graff joined Sig Ep at the University of Missouri-Rolla. He transferred to the University of Minnesota, where the Sig Ep chapter was dormant. After graduating in 1974, Tim joined Merrill Lynch as an Investment Executive in commodity futures. In April, 1976, Graff joined Shearson, Hayden, & Stone, in Minneapolis, in the same capacity.

"My job made me more aggressive in responding to challenges like that of rebuilding Minnesota Alpha," Graff said. "The sales techniques I learned enabled me to rush and teach rush more effectively."

And teach he did! During the 1978-79 school year, Minnesota Alpha (as a colony) increased from five to 25 members. "It was quite a challenge," says Tim, "coming from a chapter already established in a house and operating fairly effectively, to starting from scratch with a group of freshmen and sophomores."

Throughout the re-chartering process (which culminated April 28, 1979), Tim Graff provided a link between three groups: the colony members, young Minneapolis area alumni working directly with the undergraduates, and the Minnesota

Graff

Alpha alumni.

"I have gained a lot of personal satisfaction in seeing the progress of our group toward being a self-sufficient entity," Tim explained. "Also, it has been a pleasure and an education to work with someone who I feel is one of the greatest entrepreneurs and promoters in the country—Brother **Curt Carlson** (Minnesota Alpha '37). My role at Minnesota Alpha would have been impossible without his resources. It has been extremely impressive that a man with so many responsibilities still has time to give to the Fraternity."

"I have also been impressed by other members of Minnesota Alpha who remain active, even though they left campus almost half a century ago—quite a path for young Sig Eps to follow!"

Fleming

Sir Isaac Newton said, "If I have seen and been further, it is because I have stood on the shoulders of giants." **Dr. Horace Fleming, Jr.** (Clemson) follows this philosophy in teaching. "If I can lift the student a little bit higher," he says, "and can encourage him to obtain just a little bit more than he ever dreamed he could, then I have done my job as a teacher." Dr. Fleming emphasizes this in his work as Chapter Counselor at the Clemson University (South Carolina Beta) Chapter, as well.

Dr. Fleming did not join the Fraternity as an undergraduate. "I did rush Sig Ep at the University of Georgia," he explained. "I know now what I missed as an undergraduate. But the kindnesses of the brothers at Georgia made me immediately receptive to later serving as a Chapter Counselor, and to become a brother. Sigma Phi Epsilon finally got me."

Sig Ep was fortunate to "get" Dr. Fleming, an extremely active faculty member at Clemson. Since 1972, he has served on the College of Liberal Arts Curriculum Committee, the Faculty Senate, the University Grievance Committee, and the University Housing Institute, to name a few. He recently received the 1979 Alumni Master Teacher Award from Clemson's Student Alumni Council.

Fleming values innovation and practical applications of course materials in the classroom. His course "The Supreme Court and Constitutional Law," for example, includes a full-scale court case. Students take the parts of the justices and attorneys, research the case being "tried," present arguments, make decisions, and write opinions. Two other colleges have adopted this technique, and many of his graduates call it "the most useful exercise we had in college."

Fleming's work with the Clemson Sig Eps shows his interest in students doesn't end at the classroom door. He calls it "one of the most satisfying of personal experiences. It reminds me of the value of social and extracurricular activities in rounding out a student's collegiate experience."

"Through me," he continued, "students can see the genuine concern of faculty and staff for their well-being. They realize that we are human, caring, and dedicated to serving them. To assist a student, to guide and encourage him to do his best, and then to see him succeed is the most satisfying part of my job!"

The Educational Foundation

Program can benefit family, Fraternity

Alumni brothers from all over the country have found the Fraternity's Group Life Insurance Plan an excellent way to benefit the Sigma Phi Epsilon Educational Foundation.

Sigma Phi Epsilon makes this program available to provide quality group insurance at economical rates. Over the years, hundreds of members have taken advantage of this program to cover themselves, and, in many instances, their wives and children. The plan is popular among members of all ages because of its economical rates and flexibility in coverage amounts (members can now apply for coverage up to \$100,000).

Many brothers cannot presently afford to give a large sum to the Foundation. However, it is possible to leave a substantial sum through the life insurance plan by naming the Foundation as a partial beneficiary.

For example, a brother can purchase \$25,000 of insurance and name the Foundation as partial beneficiary for \$5,000, leaving \$20,000 payable to his wife and family. In this manner, the Educational Foundation receives a generous contribution, and the family receives quality insurance protection at the same time.

With the assistance of Robinson-Kramer, Incorporated, the plan administrator, the Foundation has over \$150,000 in beneficiary pledges.

The Educational Foundation provides scholarships to undergraduates, such as the J. Edward Zollinger Outstanding Senior awards. Under this program, the Foundation gives a scholarship to the chapter of one senior in each of the Fraternity's 25 districts. These chapters, in turn, give the scholarships to sophomores displaying leadership abilities.

Regional Leadership Academies also receive financial support from the Educational Foundation. These workshops, held each spring in several locations throughout the country, provide training in chapter management, financial management, communications skills, and chapter operations; to the officers and chapter counselors from each chapter.

Many chapters have their own scholarship programs within the Educational Foundation. Through these programs, the chapter awards the scholarships to its own members,

with the alumni receiving tax deductions for sending their contributions through the Foundation.

All contributions to the Educational Foundation are tax deductible.

If you would like to receive a brochure describing the life insurance program, or if you already participate and would like information on how to include the Educational Foundation as a partial beneficiary, call Robinson-Kramer at their toll free number (800) 336-3316 (in Virginia, call collect at (703) 691-1755).

Foundation Announces its 1979-80 Scholarships

A three-member Foundation Scholarship Awards Committee determines the recipients of the Foundation's grants each year. The committee includes Dr. Jack J. Early (Kentucky '56), President of Limestone College in Gaffney, South Carolina; Dr. Garland G. Parker (Cincinnati '37), Executive Director of the Enrollment Policy and Educational Research facility at the University of Cincinnati; and Dr. Fred A. Tarpley (East Texas State '61), Professor of English at East Texas State University.

Each chapter receives a supply of application forms in late January every year, with a March 15th deadline for returning them to Headquarters. The committee selects juniors and seniors to receive the awards, based on participation in co-curricular activities and financial need.

The amount of scholarships awarded from each fund each year depends on the fund's earnings for that particular year.

Student Loans Available

The Sigma Phi Epsilon Educational Foundation has available in the Charles L. Yancey, Edward T. Bradford and California Beta Student Loan Funds in excess of \$10,000 earmarked for Student Loans for the 1979-1980 academic year.

These loans are available to juniors, seniors and graduate students who have been a member of the Fraternity for at least one year prior to the date of application. The present maximum loan is \$500 repayable within two years after graduation. The trustees of the Foundation and the Student Loan Fund committee are now considering an increase in the maximum loan.

For information and an application you should write:

Undergraduate Notes

Foster Home Concept Explored

Cont. from p. 1

the chapter and its facilities.

To alleviate some of the difficulties encountered in the chapter's first experience as foster parents, Todd's program was somewhat more structured. A six-man committee monitored the program and provided guidance in scholarship and finances.

Through weekly meetings with Todd, the committee tried to work out any problems he may have encountered in the past week, and developed goals for the upcoming weeks. The committee provided a little more guidance and spontaneity to the responsibilities of raising a foster child.

In addition, Todd agreed to live by a "contract," specifying study hours, work time, and hours out. Youth and Shelter Services also provided ongoing contact with Todd and the chapter, and reimbursement for support. Although Todd said he was "a little hesitant" about the idea at first, after he learned about the fraternity and the people living there, he knew he

Some Iowa Staters with one of their foster sons, Todd (second from left). From left Jeff Prouty (former Chapter President, current Regional Director), Todd, Les Hazelton, and former National Director Don Morris.

could "make it work."

David is the most recent of Iowa Beta's foster kids. He moved in during the Fall of '78. David, like Keith and Todd, was in trouble with the law, not able to live with his parents, and on the verge of being put in an institution. He was a year younger (16) than either Keith or Todd when he moved into

Iowa Beta, and he, too, came from a broken home.

Dave Fisher, president of the chapter at the time, attended District Court with David. The court decided the fraternity would be more beneficial than placing David in a traditional foster home or a group home.

The fraternity also provided David,

who was considering going to college in the future, an opportunity to see college students and the college environment. He was able to attend several musical and theatrical productions put on by the university, in addition to spending a week skiing with the brothers in Steamboat Springs, Colorado.

In measuring the success of David's year at Iowa Beta, and the progress of the program over the past four years, it is interesting to note that none of the youths have been in trouble with the law since leaving the chapter. Keith and Todd are both doing well in the Navy, and David plans to start an apprenticeship as a carpenter.

The past four years have been a learning experience for the brothers of Iowa Beta and everyone involved in the Fraternity's foster care program. Perspectives have changed and horizons expanded by the parenting attempts.

For Keith, Todd, and David, it has been a unique and special opportunity to share the heart of Sigma Phi Epsilon.

News and Notes from Around the Country

Three starters from the Ferris State College baseball team were members of the Michigan Zeta Chapter of Sigma Phi Epsilon at Ferris. Steve Calkins (left), a senior, led the team in home runs (16) and RBI's (35), while hitting .301. He was voted to the all-conference team in his junior year.

Tony Nato, center, won the team's 1979 batting title, hitting .378 for the season and .500 in league games. Tony was named to the all-conference team.

Chris Daily, right, the third Sig Ep senior on the team, started at third base and had a fine .978 fielding average.

"Batter up!" was the cry at Monmouth College, as the Illinois Gamma Sig Eps joined forces with the Sigma Alpha Epsilon chapter to sponsor a fraternity baseball tournament. With money raised from entry fees, the two groups bought a membership to the YMCA for a local sixth grader.

The six fraternities at Monmouth each payed a ten dollar entry fee. The sixty dollars went to Chuckie Brentise in the form of a membership to the "Y". (Chuckie is shown in the picture above with the SAE Chapter President, left; and Tony Hart, President of the Illinois Gamma Chapter.) The principal and sixth grade teaching staff at a local elementary school selected Chuckie as the recipient.

The two fraternities held a dinner, where they gave the boy the membership, a Monmouth College sweat shirt, and a year's pass to the school's athletic events.

Boise State Celebrates

Initiation, a special presentation to the Grand President, and a new award highlighted Idaho Beta's first anniversary celebration. Special guests included Grand President John W. Hartman; Dr. Richard Bullington,

Executive Vice President of Boise State University; Gary Craner (Utah State, '65), Chapter Counselor; and Gary Carroll (California State-San Diego, '72), Idaho Beta Alumni Board President.

Appalachian State (Boone, North Carolina) Sig Eps completed their most successful year since the chapter's chartering in 1975, with 19 initiates . . . University of Arkansas men pledged 32 this past summer, with the help of a rush film produced by one member. Sig Eps hold the IFC, Blue Key National Honor Fraternity, and Arkansas Booster Club presidencies . . . the Auburn University at Montgomery chapter held its second annual goal-setting retreat . . . Bucknell initiated Lee Kistner, their cook of 15 years . . . Central Michigan captured the 1978-79 campus all-sports trophy, as the number one intramural team, for the fifth straight year . . . University of Charleston (West Virginia) Sig Eps returned with 27 brothers this fall and have men active in student government . . . Ferris State (Michigan) Sig Eps are again planning the Homecoming program for their entire campus . . . Fort Hays brothers helped raise money for muscular dystrophy by participating in a "rock-a-thon" with the local chapter of Sigma Sigma sorority . . . the University of Illinois chapter has made some repairs on the house, and plans rewiring. New carpet and furniture spruced things up at Kentucky Wesleyan this summer . . . Lewis University Sig Eps took two firsts in intramurals and held a successful "Alumni Night" at their gym last year . . . Oklahoma State won the "Most Improved Fraternity" award, has brothers serving as Vice-President of the student body and Editor of the yearbook, and held their first formal since the chapter's re-establishment last year . . . University of South Carolina Sig Eps won intramural softball, and completed a new chapter library . . . a successful all-campus party kicked off the year at Winthrop College.

The picture to the left appeared in the last issue of the Journal, with an article concerning the University of Rhode Island (Rhode Island Beta) chapter's construction plans. However, the picture actually shows the Bucknell University (Pennsylvania Kappa) chapter and the groundbreaking for a new wing. The photo shows Bucknell's Chapter Counselor, Jack D. Moyer (Bucknell, '56), center, talking with the architect and contractor. Below . . . Bucknell's "new" house.

After 20 weeks of two-hour-a-night practices, some bumps and bruises, and sunburned faces, the Sig Eps at Central Michigan University took home a fourth place finish in the National finals of the "Budweiser College Super Sport" competition.

For over five months some 6,000 coed teams across the United States competed in this Olympic-style competition. The contest included events in volleyball, frisbee-toss, football, 880-yard relay, tug-of-war, obstacle course, and an event similar to the basketball game of "Horse."

The Central Michigan team took a third place national finish in last year's competition (the first year of these events). Once again this year, Central Michigan won a campus victory, the State title, and the Mid-West Regional Championship.

This year's team consisted of many new faces; however, the nucleus of last year's team (Coach Mike Fraser, Captain Kevin Tobie, Ken Jakiel and Trainer Joe Hallman) lended some experience.

Installations

Two "Firsts" at UT-San Antonio

By Larry E. Schmidt

University of Texas-San Antonio

The Sigma Phi Epsilon colony at the University of Texas at San Antonio (UTSA) recorded two "firsts" on their installation day. The 26 initiates became the first "Sigma" chapter in Sig Ep's method of designating chapters by the name of the state, followed by a Greek letter, in alphabetical order (thus, Texas became the first state to have 18 chapters granted ... 16 of those chapters are still active). Sigma Phi Epsilon also became the first fraternity chartered on the UTSA campus.

Three chapters participated in the March 31, 1979 initiation ceremonies: Lamar University, St. Mary's University, and Angelo State University. Also on hand were **John F. McMillan**, Regional Director; and then National Director, now Grand President, **Carl O. Petersen**.

Installation weekend began with a reception for area alumni Friday evening, followed by a dance sponsored by the St. Mary's University chapter. Initiations began Saturday morning, and continued throughout the day. A banquet, highlighted by the charter presentation and a dance, concluded the day.

Speakers at the installation banquet included National Director Petersen; **Chester J. Lee** (Texas '32), Order of the Golden Heart; **Gregory A. Barrett** (Texas '75), Chapter Counselor; and **John Oberman**, Chapter Controller.

The University of Texas at San Antonio, founded in 1969, currently has an enrollment approaching 10,000 students, and continues to grow. The main campus is located in northwest San Antonio, and is

Members of the UTSA chapter display their charter.

the home of four sororities and three additional fraternities.

In August, 1978, soon-to-be colony President and Vice-President, **Robert Connolly** and **James Jory**, met to discuss the possibility of establishing a new fraternity on campus. After talking with the enthusiastic men of Texas Theta, the two decided to go with Sigma Phi Epsilon.

Initially, the colony consisted of six men, increasing to twenty within one month. On September 21, 1978, the colony was officially recognized as a registered student organization.

The faculty and staff of the University of Texas at San Antonio helped the group realize their goals: to be recognized by the college community as a new breed of fraternity men, to keep consistent membership of qualified men, and to become, and remain, financially stable.

Special thanks for supporting Texas Sigma go out to area alumni; James W. Wagener, President of UTSA; and chapter faculty sponsors: Dr. Leslie McNelis, Professor Glen Dietrich, and Professor William Scott.

Service and Social Events Highlight Year

Members of the first chartered fraternity at Buffalo State.

By Dwight A. Chamberlain, President
New York Eta

Sigma Phi Epsilon became the first national fraternity chartered at Buffalo State College with the initiation of 24 brothers as the New York Eta Chapter.

Colonization took place in the summer of 1978, after three students approached **Dr. Jim Seward** (State University of New York at Buffalo, '70), Assistant Professor of Broadcasting at Buffalo State College, on the

procedures for forming a fraternity. Their efforts culminated April 7, 1979, with installation.

The induction marked a milestone in Sig Ep history, with the dual installation of New York Eta, and New York Epsilon (State University of New York, Buffalo). New York Epsilon was one of three Sig Ep recharterings last spring.

Within a short time, the men of New York Eta had made their mark on campus. The colony took first place in the homecoming float competition, raised over \$500 for the reconstruction of the campus planetarium, sponsored

a number of successful all-campus social events, and had five brothers elected to various key positions in student government.

As a result of their campus involvement, a local radio station asked the colony to participate in a discussion on contemporary fraternity life. WKBW, a 50,000 watt station, contacted Dr. Seward, who worked with the station's staff in producing the program.

Most importantly, the group developed an ongoing rush program, and pledged 21 men in the period from October, 1978, to March, 1979.

Installation ceremonies began Friday night, April 6, when the future brothers of New York Eta hosted an informal reception in the campus student union for the installation teams and the future brothers of New York Epsilon. The next morning, men from the Illinois Institute of Technology (Illinois Beta), Syracuse University (New York Alpha), and Villanova University (Pennsylvania Rho) conducted initiation ceremonies.

Later in the evening, a reception and dinner-dance was held in honor of the two new chapters. Past Grand President **Dr. R. Eric Weise**, District Governor **Richard W. Myers**, Regional Director **Scott Averill**, and Dr. Barbara Frey (acting President of Buffalo State College) took part.

New York Eta looks toward a solid future at the State University College at Buffalo, a campus of 8,000 liberal art students. Shortly after initiation, a weekend retreat was held 60 miles from Buffalo, at Letchworth State Park. The chapter set goals and wrote objectives to help chart its way through the first year of operation.

Milestones Marked

75th Anniversaries

Ohio Northern University, Ohio Alpha; chartered February 18, 1905.
North Carolina State University, North Carolina Beta; chartered March 4, 1905.

Purdue University, Indiana Alpha; chartered March 24, 1905.

50th Anniversaries

Davidson College, North Carolina Epsilon; chartered April 5, 1930.
University of Texas at Austin, Texas Alpha; chartered May 24, 1930.

25th Anniversaries

Arkansas State University, Arkansas Gamma; chartered February 26, 1955.

Evansville University, Indiana Epsilon, chartered March 12, 1955.
Georgia State University, Georgia Beta; chartered May 21, 1955.

10th Anniversaries

Tennessee Technological University, Tennessee Epsilon; chartered September 26, 1969.

University of Charleston, West Virginia Zeta; chartered January 10, 1970.

St. Mary's University, Texas Theta; chartered January 31, 1970.

The Defiance College, Ohio Omicron; chartered April 4, 1970.

Clemson University, South Carolina Beta; chartered April 4, 1970.

James Madison University, Virginia Iota; chartered April 22, 1970.

Virginia Polytechnic Institute and State University, Virginia Kappa; chartered April 25, 1970.

Marquette University, Wisconsin Zeta; chartered April 25, 1970.

Morehead State University, Kentucky Zeta; chartered April 25, 1970.

Chapter News in the Journal

The Chapter News section of the *Journal* is included in two of the four editions each year. Every chapter and colony is notified in advance of the reporting deadline, and is furnished a report sheet. The next edition to include Chapter News will be the February, 1980 issue, which will report on fall and winter activities. The May, 1980 issue will also include Chapter News.

36th Grand Chapter Conclave

Cont. from p. 1

Alabama Zeta, Huntingdon College; Michigan Iota, Northwood Institute; Massachusetts Epsilon, Bentley College; Idaho Beta, Boise State University.

Also, chapters installed this past year were presented their charters by Executive Director Charles N. White, Jr.: New York Zeta, Marist College; California Gamma, University of California at Santa Barbara (recolonization); Texas Sigma, University of Texas at San Antonio; South Carolina Gamma, Francis Marion College; South Carolina Delta, Winthrop College; New York Epsilon, State University of New York-Buffalo (recolonization); New York Eta, Buffalo State College; Illinois Kappa, Southern Illinois University-Carbondale; Pennsylvania Sigma, York College; Minnesota Alpha, University of Minnesota (recolonization); Maryland Gamma, Towson State University.

Throughout the weekend, undergraduate brothers and District Governors served on the following Grand Chapter Committees, which reviewed, debated, and made recommendations on all legislation assigned to them for consideration: Constitution & By-Laws, Resolutions, Ways & Means, Auditing & Finance, Brotherhood Development, Scholarship & Alumni Nominations. (See the review of legislation section

Executive Director Chuck White presents chapter president Harry Waddell (Southern Illinois-Carbondale) with the Illinois Kappa charter.

for details on legislative matters acted upon.)

The Saturday Awards Dinner featured presentations of the most prestigious awards in our Fraternity... the Order of the Golden Heart, the Sigma Phi Epsilon Citation, and the Buchanan Outstanding Chapter Award.

For the seventh Conclave in a row, the traditional stand-down was won by former Grand Presidents Larkin Bailey and Walter G. Fly; both were attending their 21st Conclave! Brothers Bailey and Fly were awarded certificates designating them as the "Fraternity's Most Loyal Legionnaires at the 36th Grand Chapter Conclave."

Elections on Sunday afternoon for the National Board of Directors climaxed two full days of Conclave activities.

Carl O. Petersen, (Muhlenberg '49), a member of the Board for six years, was elected to a two-year term as Grand President. Frank J. Ruck, Jr. (Michigan '46) was elected to his fifth two-year term as Grand Treasurer. Dr. Donald B. Ruthenberg (Baldwin-Wallace '53) and William G. Tragos (Washington Univ. (Missouri) '56) were elected to six-year terms on the Board.

Two undergraduates, Chris Seeker of the Texas Tech University chapter and Dave Fisher of the Iowa State University chapter, were each elected to two-year terms.

Conclave Chaplain James C. Nissen (Oregon State '74) led the convention participants in a special "Celebration of Sigma Phi Epsilon" on Sunday afternoon.

The "Celebration of Sigma Phi Epsilon" was a time to remember those brothers deceased since the last Conclave, reflecting upon the legacy they have left to us and committing the present brothers of Sigma Phi Epsilon to maintain and safeguard the history, legacy, and tradition of Sigma Phi Epsilon.

Additional special Conclave events included... the J. Edward Zollinger Luncheon sponsored by the Past Grand Presidents for alumni, the Friday evening Alumni Riverboat Party, District meetings conducted by the District Governors, special Chapter Counselor seminars, and Sigma Phi Epsilon's second Conclave Chorus.

New members of the National Board of Directors were administered the Oath of Office during the Sunday Awards Dinner by Brother Larry Campbell (Lewis & Clark '53). Following a talk on his reflections on his two years as Grand President, Brother Hartman, in an emotionally charged ceremony, placed the Grand President's pin on Brother Petersen. Brother Petersen followed with remarks on his election and on the future of Sigma Phi Epsilon.

Grand President Sees Growth Continuing

Alumni Support makes the Difference

The new Grand President "Pete" Petersen heads for the podium.

"We will continue our enthusiastic growth program. We have an obligation to give more men an opportunity to experience Sigma Phi Epsilon on an individual and chapter level." With that statement, Carl O.

"Pete" Petersen, (Muhlenberg '49), Sigma Phi Epsilon's new Grand President, indicated the direction he sees the Fraternity heading as we enter the 80's.

Delegates to the 36th Grand Chapter

Conclave, held in Cincinnati in August, elected Brother Petersen to the top spot. "Due to their (the delegates) enthusiasm and support, I consider it a mandate to continue a strong expansion program. I also feel we need to do more and more in supporting our current chapters and undergraduates."

"The key to chapter support is alumni involvement," Petersen added. "I want to encourage more alumni involvement on the local and national levels. Obviously, not every alumnus will be involved, but we should make very effort to involve every interested alum."

According to the new Grand President, the strongest chapters have strong alumni support. "Strong local alumni support also frees our Headquarters staff to deal with the critical problem areas," Petersen commented.

Brother Petersen knows what he is talking about in the area of alumni support. He visited over 100 chapters while working for the Headquarters staff between 1949 and 1955. Since then, he has served as chapter counselor for several chapters, most recently at the University of Southern California. He also has served as District Governor, was a member of the Committee for the Recodification of Sigma Phi Epsilon's Constitution and By-Laws, and has served on the National Board of Directors since 1973.

While an undergraduate, Petersen served the Muhlenberg chapter as its president. He was also the Interfraternity Council president, as well

as student body president. While in college, he was elected to Omicron Delta Kappa, the honorary leadership fraternity; Phi Sigma Tau, honorary philosophy fraternity, and Delta Theta Phi, a law fraternity.

Petersen

Professionally, "Pete" is an attorney in Hollywood, California; having received his law degree from the University of Michigan in 1957. He belongs to the Los Angeles County Bar Association and the California Trial Lawyers Association.

Looking ahead to his two year term as Grand President, Brother Petersen said: "I will enjoy making contacts with all of the alumni I have met over the past 35 years, especially those I met as undergraduates, when I traveled for the Fraternity."

850 Came to Cinci

First Conclave Drew Seven

The 171 chapters represented and 850 participants in the 36th Grand Chapter Conclave provide quite a contrast to the first Conclave held December 23, 1903. Four of the nine existing chapters sent delegates, and a total of seven brothers met in rooms at Richmond College.

The first Conclave gave the Fraternity authority to publish an official magazine, "the Journal," to be issued quarterly, and to be edited by William L. Phillips, and managed by Thomas J. Kagley."

The Conclave named Pennsylvania Alpha (Washington & Jefferson College in Washington, Pennsylvania) as the host for the Second Conclave in 1905. During election of officers, the delegates named Delaware W. Scott as Chairman of the Grand Council (the "chairman" is now known as the Grand President, and the "Grand Council" as the Grand Chapter).

The first Conclave gave a mandate for the growth of the Fraternity, and six new charters were granted in the next six months.

By the time the second Conclave rolled around in late April, 1905, the Fraternity had grown to 14 chapters, representing the states of Virginia, Pennsylvania, West Virginia, Illinois, Colorado, South Carolina, Ohio, North Carolina, and Indiana.

The second Conclave established the Fraternity's organizational structure. The delegates reached decisions on many details and procedural matters. The decision to write a ritual, the design of the pin, the form of certificates of charter, and the Fraternity's flowers all came out of the 1905 Conclave.

New Leadership Committeeman Dave Gingras (left) makes a point.

Citations Presented to Seven

The Grand Chapter of Sigma Phi Epsilon presents the Sigma Phi Epsilon Citation to a small, highly select group of alumni every two years. These men have achieved uncommon success in their particular professions, bringing honor to themselves and to their Fraternity. Only 161 Sigma Phi Epsilons have received this high honor since it was first presented in 1965.

This year, Citations went to:

Tom H. Barrett
Executive Vice President of
Corporate Manufacturing
The Goodyear Tire & Rubber
Company
Kansas State University, '53

36th Grand Chapter Conclave

Delegates to the 36th Grand Chapter Conclave have elected the President of a college and the Chairman of the Board of an international advertising firm to the National Board of Directors. The Board consists of eight National Directors (two must be undergraduates), the Grand President, and the Grand Treasurer.

The Board has the authority of the Grand Chapter between Conclaves and is responsible to that body for the satisfactory operation of the national Fraternity, the individual chapters, and all activities of the Fraternity.

One of the newly elected undergraduates, David B. Fisher, hails from Iowa State University. Dave served the Iowa State Chapter as President last year and has been extremely active on campus as Chairman of the Student Senate, Vice President of the student body, and a member of the Iowa State Athletic Council.

Dave received the J. Edward Zollinger Outstanding Senior Award for the state of Iowa (District 16) last year. He was also the legal guardian for a foster child, as part of the Iowa State chapter's foster child program (highlighted elsewhere in this issue of the Journal).

Christopher G. Seeker, a pre-med/chemistry major at Texas Tech University, won election to the second undergraduate post. Chris currently

serves the Texas Tech chapter as President and has held the Vice Presidency and Rush Committee Chairmanship. Chris was Texas Tech's outstanding active in 1978-1979. He also won a scholarship from the Sigma Phi Epsilon Educational Foundation for 1979-1980.

On campus, Brother Seeker served the Texas Tech Student Foundation as its Director last year and was a Senator-at-Large in the student government.

Dr. Donald B. Ruthenberg, initiated by the Baldwin-Wallace chapter, was elected to a six-year term on the Board. He is the President of Southwestern College, a four-year liberal arts institution, related to the United Methodist Church, in Winfield, Kansas.

After receiving a B.A. in Sociology from Baldwin-Wallace, Dr. Ruthenberg earned two Masters degrees: one in Theology from the Illif School of Theology in Denver, and an M.A. in Higher Education and Psychology from the University of Southern California. He received a Doctorate in Higher Education Administration and Student Personnel Services from the University of Denver.

Before his appointment at Southwestern in 1972, Brother Ruthenberg was Director of Educational Research and Program Development at Ottawa

Bill Tragos and Dave Fisher talk with their constituents.

University in Ottawa, Kansas, and Vice President for Student Affairs and Institutional Studies at the University of Redlands in California.

He received the Sigma Phi Epsilon Citation in 1977. The Citation goes to alumni achieving uncommon success and stature in their career fields. He also served briefly on the National Leadership Committee before his election to the National Board of Directors.

Chairman of the Board of TBWA, an international advertising agency, William G. Tragos rounds out the National Board of Directors. Initiated by the Washington University chapter in St. Louis, Missouri, Bill began his working days with Sigma Phi Epsilon, serving as a Field Secretary (now known as a Regional Director) from 1956-1959.

After his days with Sig Ep, it was off to Europe for Brother Tragos. He and three partners founded the TBWA (each letter stands for a partner's last name) agency in Paris, in 1970. It was

the first international ad agency based in Europe.

Since 1970, TBWA has expanded to Geneva, Zurich, Italy, Frankfurt, London, Madrid, Brussels, and most recently, New York City. The expansion to New York brought Brother Tragos back to his homeland after 16 years abroad.

The agency's accounts include Johnson & Johnson, Leyland International, Nestle, Samsonite, Monet-Hennessy (makers of Cuvee cognac), Philip Morris, and Anheuser-Busch.

Six of the National Directors serve staggered six-year terms. The two undergraduate members are elected for two-year terms, as are the Grand President and the Grand Treasurer. National Directors are prominent in the business and professional worlds. They are selected because of their noticeable devotion to the Fraternity and receive no compensation for this position, except for necessary expenses.

New Songbook Now Available

Thanks to National Music Chairman Herb Yenser, music has again become a big part of Sig Ep get-togethers. Herb has had a glee club at the last two Grand Chapter Conclaves, and manages to attend a few Regional Leadership Academies each year, as well.

Spurred on by Herb's talent and enthusiasm, the Fraternity decided to revise and print the Sig Ep Songbook. Kent VanCleave (Arizona State '77) did an excellent job editing and compiling the new book.

Available from Headquarters, the new Songbook has 116 pages of songs for every occasion. Order yours now, it costs only \$3.00 (or get four for \$10.00). Simply fill out and mail the order form below.

Reflections

Reunion, Interaction Add Spice

In May, the notice came—our 20-year reunion . . . 20 years ago, I pledged Sigma Phi Epsilon. Now, the reminder of our third meeting, for we agreed, as seniors, that we would gather every five years and touch base with our good friends.

A new twist, however—this time, we planned to meet at the Grand Chapter Conclave in Cincinnati during the middle of August. Having never been to a Conclave, I acquiesced, and my wife and I headed toward Cincinnati.

Arrival—the Netherland Hilton—Sig Eps of all sizes, shapes, origins, and age. An air of expectancy, a tingling sense of intrigue, what is this to be? A certain anxiety fills the air, for there are nearly 800 of us looking about for old friends and making new ones, as we walk through registration.

Brothers' faces appear, a little older, but with a glimmer in their eyes. Soon, days gone by were recalled, the football rallies, the RF's played on the members, the great snowball fight against the SAE's, and the many good times we shared while at Delta. We shared the stories; many of them have grown in color and context since their first telling. We shared the delight in each other's new direction since our last meeting, and the stories of new and old served to rekindle the feeling of brotherhood.

My experience was twofold, for while my class had a reunion, there was the Conclave. Brothers from across the country, from 18 to 92, all gathered to share this experience we refer to as "Brotherhood."

On the elevator, I found undergrads

from my home chapter—they seemed amazed that we were there together. A quick update followed, and with the opening of the elevator, I turned, said good-bye, and departed. In retrospect now, I noticed that the experiences we shared were amazingly alike. The names had changed, but there was a consistency in the days that I shared and the days the men are experiencing now.

Looking back, the weekend begins to focus. My reunion serves to bring

meaning to my very core, for these brothers, though many now distant, shared my life and continue to share it. Concurrently, new brothers continue the chapter and the Fraternity as a whole.

I am delighted to realize that the experience we felt, which was so unique and intense, continues today for men throughout the country. I can only hope the undergraduates of today are able to have the same lifelong experience of brotherhood as I have.

The Conclave provided for alumni with seminars, and a chance to interact with other alums.

Parliamentarian Dr. R. Eric Weise (left), and the Brother behind the Gavel, Dr. Barry Z. Posner.

Legislation

Scholarship Director Approved

The 36th Grand Chapter considered 35 pieces of legislation, adopting 19 and rejecting 15 (one was withdrawn). Major items under consideration which were adopted:

- the establishment of an annual award for outstanding alumni programming by undergraduate chapters.
- a policy that the use of the Skull and Crossbones Independent of the badge be done only with the greatest of discretion.
- a provision for semiannual election of officers of an undergraduate chapter upon a two-thirds vote of the chapter and approval by the District Governor, with supervision by the Chapter Counselor.
- to have a national scholarship director by January 1, 1980 and a scholarship guide published for undergraduate chapters.
- an increase in the pledge fee from \$25 to \$30, and increase in the initiation fee from \$90 to \$95, each effective November 1, 1979; and an annual dues of \$5, with the first chapter payment due in the fall of 1980.
- the establishment of three traveling awards for each district for the areas of community service, fund-raising and participation in campus activities, to be presented annually at Regional Leadership Academies.
- the Honor Award of the 36th Grand Chapter to John W. Hartman.

Items rejected were:

- a change in undergraduate election dates to not later than the first regular meeting in February.
- a change in the chapter display flag, adding the state abbreviation to the Greek letter designation.
- to set a minimum of eight weeks for the Brotherhood Development Program.
- to make Chapter Investment Fund Deposits optional.
- to establish a Conclave reserve fund for delegates' expenses.
- to establish the position of National Job Placement Director.
- to establish an informal handshake.

The smooth flow of 35 pieces of legislation is a tribute to the excellent work of the committees and committee chairmen (all undergraduate Brothers) of the 36th Grand Chapter, the Conclave Parliamentarian Dr. R. Eric Weise and the Brother behind the Gavel, Dr. Barry Z. Posner.

Conclave Committees and their Chairmen were:

Ways and Means	Bob Kleiderer (Texas)
Constitution and By-Laws	Mark Steeves (Oregon)
Resolutions	Bill Matthews (Bucknell)
Credentials	Steve Currence (South Carolina)
Nominations	Steve Ruttner (Washington)

K.C. Alums Aid Seniors in Job Search

The Greater Kansas City Alumni Chapter has started a program to fill a need every graduating senior has: getting a job.

Under the direction of Chairman Jean Thomas Fisher (Kansas, '46), the Alumni Chapter's Job Placement Committee printed and distributed resumes to 75 influential Kansas City Sig Eps for employment consideration. According to Fisher, the program had a very successful baptism.

"Outside of those returning to school (for graduate studies) or those who will not graduate until 1980, everyone was placed in a job, with the exception of one individual . . . and that person rejected a very nice offer."

The Committee began by sending letters to the presidents of each Kansas and Missouri Sig Ep chapter. The letter outlined the program, asked for names of interested seniors, and offered to supply blank resumes. Each participant filled out a standard resume form and sent it, with \$9.50 to help cover printing and typing, to the Committee.

After retying the resumes, the Committee printed and distributed them in a booklet to 75 Kansas City Sig Eps. The group went to press with 16 resumes. This year, Chairman Fisher says the group hopes to increase the number of resumes included.

"With an earlier start," Fisher explained, "and a year's experience, we should have a successful second year. We also will emphasize the job descriptions on this year's resumes, to better pinpoint possible employers. The senior will list a type of firm, or a particular firm, he wants to work for."

"We intend to send letters, or include seminars, on how to properly apply and interview for a job in this year's program, as well."

Fisher said he received excellent responses from all the employers he worked with, Sig Eps and non-Sig Eps alike.

The Greater Kansas City Alumni Chapter is also forming a rush clearinghouse for chapters in Missouri and Kansas. The program will provide a means to exchange information between chapters on prospective

members.

During the summer, when a chapter receives information about a potential member planning to attend another college, it will send that information to the Alumni Chapter. One of the Alumni Chapter members will then forward

this information to the appropriate chapter.

For more information on these programs, or how you can get involved with one of the Fraternity's 36 Alumni Chapters, contact Sigma Phi Epsilon Headquarters.

Alumni News

ALABAMA

Bruce C. Anderson, Auburn '76, works with the industrial engineering department of Clow Corp., a Birmingham, Alabama, manufacturer of cast iron pressure pipe products.

Auburn Honors Cottier

The Auburn University chapter (Alabama Alpha) announced the presentation of a portrait of **Dr. George J. Cottier**, perhaps the chapter's most distinguished alumnus, for permanent display in the chapter house. The portrait was presented in a special ceremony at the chapter house.

"Doc" Cottier, originally a member of the Theta Upsilon Omega at Auburn, before it merged with Sigma Phi Epsilon in 1938, has worked with the Alabama Alpha chapter for 50 years. He is a former Professor of Poultry Science in the University's School of Veterinary Medicine and, although he retired several years ago, he remained active with the chapter as Chapter Counselor.

Cottier is an Order of the Golden Heart, Sigma Phi Epsilon's most esteemed alumni award, and was featured in the chapter's fall 1978 edition of "Generally Speaking."

Cottier

George R. Armstrong, Illinois Tech '73, is with Nalco Chemical Co., Chicago.

Ronald S. Knoll, Illinois Tech '65, works for TRW Corp.; Wheeling, Ill.

Kurt L. Kolfron, Illinois Tech '70, is a construction engineer with Commonwealth Edison Co.; Lindenhurst, Ill.

Eugene D. Krop, Illinois Tech '56, is manager of employment services for United Air Lines in Chicago.

Sтивен F. Kukla, Illinois Tech '73, is associated with the American Hospital Association in Chicago.

Richard D. Maglis, Illinois Tech '53, is with Continental Can Corp., Chicago.

Henry A. Malec, Illinois Tech '61, is responsible for the systems effectiveness activity in the Systems Design Group in the ITT Telecommunications Center; Shelton, Conn.

Wayne G. Malec, Illinois Tech '67, is an electrical design engineer for Continental Can Corp. and resides in Downers Grove, Ill.

Donald W. Mally, Illinois Tech '62, works for Western Electric in Rolling Meadows, Ill.

Michael J. Morris, Illinois Tech '53, is an engineer in the nuclear department of Commonwealth Edison in Chicago Heights, Ill.

Salvatore V. Pizzuto, Illinois Tech '55, is a national applications engineer with Symons Manufacturing Co.

PF George A. Carrasco, Lewis '77, has completed training in the Army Medical Corps and is a physical therapy assistant at Ireland Army Hospital; Fort Knox, Ky.

Andrew J. Adams, Monmouth '66, is associate professor of foreign languages at North Central College; Naperville, Ill.

Nelson Takes Helm of Brokers' Association

Nelson

The National Association of Insurance Brokers (NAIB) has elected Earl C. Nelson (Southern California, '45) as their new President. Mr. Nelson, who has served on the NAIB Board of Directors since 1971, is President of The Nelson Co. in Los Angeles.

In Sigma Phi Epsilon, Nelson serves as the Endowment Chairman for the University of Southern California chapter. This group recently raised \$50,000 for the Sigma Phi Epsilon Educational Foundation.

The NAIB is a non-profit trade association of U.S. insurance brokers and agencies concerned with providing insurance and risk management services. The members' common denominator is their commercial account orientation. The group's goals include assuring high professional standards in the insurance industry and lobbying for that industry.

Bob K. Hellerud, Fort Hays '67, is an elementary school principal near Junction City, Kansas. He was selected as an Outstanding Young Man of America for 1979 by the U.S. Jaycees.

Bruce C. Champlin, Kansas State '60, is owner of the Dodge City (Kan.) Veterinary Clinic.

Ron W. Overley, Kansas State '65, was recently appointed eastern marketing director for the Periodicals Distribution Group of ARA Services. He lives in Washington, D.C.

David F. Els, Pittsburg State '77, works for Master-Chemical, Inc.; Perryburg, Ohio.

Kent Durllee, Wichita State '73, is a management engineer at Wesley Hospital in Wichita.

Donald R. Estes, Wichita State '66, is a New York-based pilot for TWA, and owns Aero Academies in Farmington, New York.

John W. Erickson, Wichita State '72, is a project manager for Braniff Airways in Dallas.

John R. Morton, Wichita State '66, is principal of Robinson Jr. High School in Wichita.

Jack T. Pittman, Wichita State '73, is an Air Force pilot flying the C-130.

Scott W. Stucky, Wichita State '70, is a lawyer with the firm of Ginsburg, Feldman and Bress in Washington, D.C.

Dr. Dennis B. Vanderheiden, Wichita State '64, is a senior research chemist for MRM, a division of Fizer, in Easton, Pa.

Fred B. Ballace, Wichita State '70, is the general manager of Dallas operations for Nichols-Homesfield.

James R. Way, Wichita State '66, is New England Regional Sales manager for Coleman, Inc. in Warwick, R.I.

Leo Wehkamp, Wichita State '71, is divisional manager for construction for Pizza Hut International in Atlanta.

KENTUCKY

Walter B. Dempsey, Kentucky '78, is advertising manager of *The Messenger*, a Catholic Newspaper in Cincinnati, Ohio.

Alexius Sallustion, Kentucky '63, is training and development administrator for Joy Manufacturing Co., Franklin, Pa., makers of underground mining machinery.

Dr. Dennis L. Hoak, Cincinnati '70, has begun a practice in internal medicine and infectious diseases in Worcester, Mass.

Allan D. Koptish, Cincinnati '71, is associated with Proctor & Gamble in Cincinnati, Ohio.

Franklin E. Robeson, Cincinnati '59, is associate professor in the College of Business; William and Mary.

Walter Roth, Cincinnati '64, is a sales engineer for Diebold, Inc. in Deerfield, Illinois.

Robert E. Bentley, Defiance '72, is an aquatic toxicologist working for Bionomics in Wareham, Mass.

Gary J. Molnar, Defiance '74, has accepted a new position as school psychologist with the Springfield (Ohio) City Schools.

Michael N. Edmonds, Miami '74, has moved to Cincinnati, following the birth of a third son, to become divisional merchandise manager for Pogue's Dept. Store.

James R. Given, Miami '77, is a community planner with the Illinois Dept. of Local Government Affairs in Chicago.

William M. O'Neill, Ohio '69, has enrolled in law study at the Cleveland Marshall College of Law. His public relations consulting firm, News Photo Ink, is now situated in Geneva-on-the-Lake, Ohio.

Michael L. Wharft, Ohio '70, is account executive for Mark Advertising Agency; Sandusky, Ohio.

Glenn H. Buckner, Ohio Northern '74, is an associate media director with Burton Advertising, Detroit, and lives in Orchard Lake, Mich.

Edwin G. Mason, Ohio Northern '35, has retired and lives in Clearwater, Fla.

George E. Trout, Ohio Northern '67, moved to Griffin, Georgia; and is vice president and director of data processing for Commercial Bank & Trust Co.

Michael J. Mundorf, Ohio State '70, is a plant engineer for Proctor & Gamble in Omaha, Nebraska.

James E. Pfeiffer, Ohio State '61, is senior vice-president for finance, ITT Financial Corp. and resides in Des Peres, Mo.

Mark A. Rollinson, Ohio State '73, is special projects assistant in public relations work for Volkswagen of America in Warren, Mich.

Dr. Alex D. Sales, Ohio State '70, practices dentistry in Cincinnati.

Dye Inventor Receives High Honor

Joseph W. Gibson, Jr. (Worcester Tech, '44) has been named the 1979 recipient of the Olney Medal for achievement in textile chemistry. The medal recognizes outstanding achievement in textile chemistry or in other fields of chemistry of major importance to textile science.

A native of Norristown, Pa., Gibson holds a BS in chemical engineering from Worcester Polytechnic Institute and did graduate work in electronics at Princeton University and Massachusetts Institute of Technology. He currently is a senior research engineer in textile end-use research for E. I. DuPont.

In the field of dye application, he invented the Thermosol continuous dyeing process which has become one of the leading dye processes in the United States (with over one billion pounds of fiber dyed annually) as well as being used extensively throughout the world.

In the field of women's sheer hosiery, he was instrumental in the development of nylon hosiery with improved fit, sheerness and durability. He also helped establish basic concepts influencing hosiery wear, life, and improved durability.

Gibson

Gibson's aptitude for innovation is also evident beyond his professional activities. He has been granted a patent on a fish swimway for an aquarium tank. He has also developed a general theory around the "big bang" concept for the evolution of the Universe.

Alumni News

Keith V. Smith, Ohio State '60, is Dean of Krannort Graduate School of Management at Purdue University; West Lafayette, Ind.

Jerry H. Steiner, Ohio State '74, a 1978 graduate of Delaware Law School, has opened law offices in Pleasantville, N.J.

Dr. Gregory B. Leifer, Ohio Wesleyan '75, has entered the Navy following graduation from Case Western Reserve University dental school.

K. Richard Cosgrove, Toledo '60, was appointed chief avionics engineer for the Air Force Precision Location/Strike System and Remotely Piloted Vehicles System Program Office at the Aeronautical Systems Division, Wright-Patterson Air Force Base; Dayton, Ohio.

H. Frederick Weiss, Toledo '72, is the Toledo area supervisor for Hickory Farms of Ohio.

OKLAHOMA

Earl H. Richert, Oklahoma State '35, editor in chief of the Scripps-Howard newspaper chain, was one of seven journalists recently named to the Oklahoma Journalism Hall of Fame. Beginning his career as a copy boy, Richert became the chain's youngest editor in 1951 when he took over the *Evansville (Indiana) Press*. He became editor of the 18-paper chain in 1959 and chief editor ten years later.

OREGON

Richard F. Emery, Lewis & Clark '66, is a senior partner in the CPA firm of Crusier, Miskel & Emery in Oxnard, Calif.

Dr. Richard Allen, Oregon '58, an associate in the Portland Obstetrics & Gynecology Clinic, is the new president of the Mount Hood Ski Patrol, the oldest and largest volunteer ski patrol in the nation.

Timothy K. Carter, Oregon '69, is a professional ski racer on national "A" and "B" circuits out of Sun Valley, Idaho.

TEXAS

Gary R. Daigle, Lamar '72, is a partner in the San Jacinto Agency, Inc., in Odessa, Texas.

Larry D. Kiker, Lamar '71, is an engineering supervisor for Dupont, based in Huntington, Conn.

Jackie L. Kilgore, Lamar '74, is associated with Rosemont, Inc.; Houston, Tex.

Captain Dennis White, Lamar '68, has completed training in maintaining municipal integrity from the National Executive Criminal Justice Training Institute. He lives in Beaumont, Texas, where he is a captain in the Jefferson County Sheriff's Dept.

Bruce G. Anderson, North Texas State '73, is senior accountant for Sedco Corp.; Richardson, Tex.

James E. Tale, North Texas State '57, is a principal in the Dallas Independent School District.

Lt. Rodney J. Smith, St. Mary's '72, is an A-6 bombardier navigator in the U. S. Navy at Oak Harbor, Wash.

John B. Stewart, St. Mary's '75, has graduated from the University of Texas Law School, and is studying for the Arizona Bar Exam. He works for the law firm of Streich, Lang, Weeks and Cardon in Phoenix.

Gary Griffith, Texas '70, has been promoted to Associate Director of University Department at Southern Methodist University. He served on the Sigma Phi Epsilon Headquarters Staff as Director of Undergraduate Operations from 1972-75.

Col. Wendell E. Little, Texas '32, U.S. Army, Ret., received the George Washington Honor Medal recently for his address: "National Security and Covert Actions of the CIA." The presentation was made in May at the Annual Freedoms Foundation Awards banquet in San Antonio.

Jack G. South, Texas '72, is an account executive for the stock brokerage firm of Thomson-McKinnin in Lake Forest, Ill.

Chris Johns Wins Photography Honor

Johns

Chris G. Johns (Oregon State '74) has been named "newspaper photographer of the year" for 1978. He won this top distinction for general

news photography during the 36th annual Pictures of the Year competition at the University of Missouri at Columbia.

The judges looked for versatility and general excellence in reviewing Chris' portfolio. He also won honorable mentions in the "Feature Picture Story" and "Sports Picture Story" categories.

Johns' career began during his sophomore year at Oregon State, when a roommate's camera spurred his interest. (That roommate, **Dennis R. Dimick** (Oregon State '73), is now photo editor at the *Louisville Courier-Journal*.) He worked for the student newspaper and yearbook, as well as for the Albany (Oregon) and Corvallis (Oregon) newspapers.

After graduation, Chris took a teaching assistant position at the University of Minnesota, and interned at the Topeka (Kansas) *Capital Journal*. After this internship ended in 1975, the Topeka paper hired him as a full-time staff photographer.

This past summer, Chris took a leave of absence to work on a photo story for *National Geographic* magazine on forest fire fighters in the Pacific Northwest.

First Baseman Also First Rate Person

From the Beavers to the Braves; that's the story of Sig Ep **Bob Beall** (Oregon State '70). Beall joined the Atlanta Braves baseball club in 1978, after playing for the Oregon State Beavers as an undergraduate, and after eight years in the minor leagues.

The first baseman/pinch-hitter earned a Bachelor of Science in mathematics. He almost put the degree to work, contemplating retirement from baseball, before Atlanta Manager Bobby Cox called him up from the Richmond Braves farm club.

Beall came to spring training in 1978 as a non-roster player, at the insistence of manager Cox. He led the team in hitting during spring training with a .450 average. During the regular season, the switch-hitting Beall batted .243 in 185 times at bat.

In the minors, Brother Beall hit .306 and .281 in 1976 and 1977, respectively. He has an excellent "eye," leading his league in walks five of his eight seasons. Bob also had a fine fielding percentage in 1978, with a .987 average at first base, and a perfect 1.000 in the outfield.

Brother Beall has played winter baseball in the Dominican Republic for

Beall

the last three years, but is unsure whether baseball will be played there this winter, due to the devastation Hurricane David left behind. But, he and his wife are going back regardless—to work for the Red Cross. Last winter, Bob and his wife drove their truck to the grocery store twice, filled it with food, and distributed it to the poor in Santo Domingo.

Pennsylvania State alums pause for a group shot at their reunion.

Penn Staters Return For '30's Reunion

By Donald P. Day
Pennsylvania Eta '33

A "Decade of the Thirties" reunion brought 17 brothers of Pennsylvania Eta, and their wives, back for a weekend at the Nittany Lion Inn, on the campus of Pennsylvania State University. Credit for pioneering the idea goes to **Ken Lyons**, and his wife, Kay.

A Friday night dinner followed an afternoon happy hour. Mrs. Laura Mateer, widow of **Matty Mateer**, and **Carl Macri** (Pennsylvania Eta Alumni Corporation President), and his wife Arleen, joined the group for the evening.

Saturday morning, the alums toured the University by bus, and that afternoon, a number took on the University golf course. Saturday evening, everyone gathered at the chapter house, where some undergraduates and Golden Hearts served dinner. The chapter had, despite the pressure of final exams, gone all out to make the house inviting, with freshly waxed floors and a spotless downstairs area.

After dinner, the group turned over \$340 to the Alumni Corporation as a start toward improving the chapter house kitchen. In addition, the alumni presented a gift to Ken and Kay Lyons as a token of appreciation for their efforts. Returning alums (with their wives) included **Robert E. Carson**, '36; **Robert H. Carey**, '33; **John S. Cole**, '37; **James M. Custer**, '34; and **Donald P. Day**, '33.

Also returning were **Dr. James R. Eynon**, '35; **Charles R. Gies**, '34; **Arlington W. Gorton**, '36; **Robert T. Golder**, '36; and **Russell T. Hope**, '33.

William W. Lauer, '35; **B. Kenneth Lyons**, '35; **George H. Mailey**, '35; and **Ralph B. Metzger**, '37; also joined the group.

R. William Reiser, '38; **John M. Stocker**, '35; and **Alva H. Tomb**, '32; rounded out those attending.

Robert A. Shirling, Texas A & M '78, is associated with FMC Corp., in Campbell, Calif.

Michael W. Black, Texas Tech '73, is a financial analyst with Texas Instruments at Lubbock, Tex. He is a recent president of the alumni corporation of his chapter.

Coy R. Johnson, II, Texas Tech '74, is supervisor of flight attendants for American Airlines; Dallas, Tex.

James R. Rholenberry, Texas Tech '75, is working toward a double master's degree in architecture and business at the University of Illinois. He was chosen as recipient of the 1978 Rummel Fellowship in architecture.

VERMONT

Richard W. Cornellie, Vermont '70, is project manager for Metcalf and Eddy, engineers, in San Bernardino, Calif.

William T. Lichter, Vermont '67, is assistant city manager of the City of Mentor, Ohio.

Albert C. Loebe, Lawrence '69, has completed three years of law study at George Washington University.

Alan L. Janie, Wisconsin-Oshkosh '70, is a reading supervisor for Burlington, Wis., area schools.

Gregory Nehrass, Wisconsin-Oshkosh, is assistant division manager of Philip Morris U.S.A., in Minneapolis.

William R. Eickelmann, Wisconsin-Stevens Point '64, has been promoted to manager of Crawford & Co., international claims adjusting firm, in Wauwatosa, Wis.

Gary B. Henderson, Wisconsin-Stevens Point '71, is division sales manager in the central Atlantic region for E.R. Squibb & Sons, pharmaceuticals. He lives in Mount Airy, Md.

Filmmaker Returns to Where it All Began

Burrud

The man who made the first Hawaii travelogue for television back in 1951 returned to the islands this year to do it again . . . this time for pay-TV. To **Bill Burrud** (Southern California '46), this is just one more in a line of successful independent production ventures.

Burrud, who hosted over 200 half-hour "Animal World" television shows in the 1960's, has taken aim at both the pay-TV and home video-cassette markets. He is currently developing a series of travel-oriented films, titled "Going Places," for cable television; as well as a group of six films, "The Amazing Apes," for home video.

His new films take the form of animal documentaries, exploring all aspects of the animals' lives; adventure travel films, covering the historical significance of an area; and traditional travelogue-style material.

In Memorium

CALIFORNIA

Gwynne H. Slack, California '23, died May 17, 1979, in Bakersfield, California.

William P. Campbell, California-Santa Barbara '54, died in 1969 at Oaji, California.

Donald H. Blanchard, Southern California '36, died June 28, 1979 in Los Angeles. He practiced law there for 35 years.

Lauren A. Dahl, Southern California '31, died April 6, 1979.

John C. Heinz, Southern California '37, died in April, 1978 in Los Angeles, where he was head industrial engineer at McCulloch Corporation.

Harrison H. Klink, Southern California '53, U.S. airman in Viet Nam, was reported shot down over Hanoi and declared dead in 1977-1978.

Herbert J. Lee, Jr., Southern California '45, died recently in Saratoga, California.

Wilbur R. Stewart, Southern California '27, died October 26, 1978 in San Mateo, California.

William J. Waters, Southern California '39, died recently in Los Angeles.

COLORADO

Stephen A. Bradfield, Colorado '30, died May 13, 1979.

M. Neville Chase, Denver '28, died April 7, 1979 in Denver.

DELAWARE

Knowles R. Bowen, Sr., Delaware '46, died recently in Kennell Square, Pennsylvania.

Alban P. Shaw, Delaware '30, died recently in Newark, Delaware.

Charles J. Kiernan, New York University '28, died recently in Hillside, New Jersey.

Robert E. Richert, N.Y.U. '43, died February 9, 1979 in Annandale, Virginia.

Elbert W. Gottlieb, Syracuse '26, died January 3, 1978 in Stowe, Vermont.

Cmdr. Leonard C. Johnson, Syracuse '24, died April 10, 1979 in Oakland, Calif.

NORTH CAROLINA

John B. Kinkinson, Jr., Wake Forest '41, died recently in Dunn, N.C.

OHIO

Douglas G. Sroufe, Miami '27, died recently in Mount Orab, Ohio.

William W. Horgan, Ohio Northern '23, died March 1, 1978 at Managa, Calif.

A. Dean Johnson, Ohio Northern '18, a retired teacher, died January 8, 1979 in Wayne, Ohio.

Garry L. Baldwin, Ohio State '58, died in February, 1979 at Jupiter, Florida.

Wilfred L. Read, Ohio State '23, died recently in Green Valley, Ark.

Ernest W. Weiman, Ohio Wesleyan '46, died April 23, 1979 in New Haven, Conn.

OKLAHOMA

Everett F. Malea, Oklahoma State '37, died August 6, 1978 in Tulsa, Oklahoma.

OREGON

Delbert V. Hill, Oregon '23, died recently in Eugene, Oregon.

James R. Buchanan, Oregon State '32, died recently in Corvallis, Oregon.

Oliver M. Hazen, Oregon State '23, died in December, 1979 at Seattle, Washington.

PENNSYLVANIA

Ernest W. Boylee, Lehigh '57, died recently in Kearney, N.J.

Rogers M. Drew, Pennsylvania '26, died April 19, 1979.

Addison M. Varney, Pennsylvania '29, died June 17, 1978 in Glen Falls, N.Y.

Walter V. Woodworth, Pennsylvania '31, died recently in New York City.

William J. Blakley, Westminster '29, died March 22, 1977 in Pittsburgh, Pa.

TEXAS

John L. Crawford, Texas '55, died recently at Galveston, Texas.

UTAH

Dr. R. Guy Lewis, Utah State '39, a Salt Lake City, Utah surgeon, died March 12, 1979 in Salt Lake City of a heart attack.

VERMONT

Elwyn W. Blanchard, Norwich '36, died April 28, 1978 in Topsfield, Mass.

John F. Bullock, Norwich '28, died January 30, 1979 in Sarasota, Florida.

Col. George C. Fairbanks, Norwich '39, a Company Commander in Patton's Third Army in

the World War II campaign to cross France and through Germany, died January 31, 1979 in Virginia Beach, Virginia. His last assignment was the Continental Army Command, Fort Monroe, Virginia, as chief of a curricula division. He was awarded six battle stars during World War II and five battle stars during the Korean conflict.

VIRGINIA

Bertrum E. Timberlake, Richmond '20, died during June, 1977 in Mechanicsville, Va.

Seacom S. Pribble, Jr., Virginia '43, died May 8, 1979 at Fredericksburg, Va.

WASHINGTON

Frank B. Welck, Washington '38, died June 16, 1979.

Douglas E. McKenna, Washington State '23, died November 2, 1978 in New Hall, California.

James Robert Rummel, Washington State '78, died in December, 1978 at Yakima, Washington of injuries received in a traffic accident.

WISCONSIN

Nolde A. Flagg, Lawrence '44, died July 5, 1978 in Winter Park, Florida of a massive coronary.

Harold R. Ahrbecker, Wisconsin '29, died December 20, 1978.

Dr. Douglas E. Thomson, Wisconsin '66, died October 9, 1978 in Eau Claire, Wisconsin, when fatally shot by vandals on his property.

Kyle C. Whitefield, Wisconsin '32, died February 6, 1979 in Bethlehem, Pa.

Former College President, Illinois Advisor Passes

Past Grand President **William A. MacDonough** (Order of the Golden Heart) recently informed the *Journal* that Sigma Phi Epsilon lost a distinguished alumnus in March, 1977: **Dr. Louis J. Long** (University of Colorado, 1930), President Emeritus of Wells College.

"I knew him in 1934-1936, when he was working on his doctorate at the University of Illinois," Brother MacDonough said. "He and I served as unofficial chapter advisors to Illinois Alpha. Really, we were just two Sig Eps trying to help the chapter grow and live up to its potential. We and our wives enjoyed helping the chapter and the brothers."

While at Illinois, Phi Beta Kappa and Phi Kappa Phi honor fraternities elected Long to their membership.

After earning his Ph.D., Long went to Allegheny College in Meadville,

Pennsylvania as an Economics Professor. He later moved from the classroom to serve as Business Manager and Treasurer.

In 1951, Wells College, a small liberal arts college for women in the upstate New York town of Aurora, elected Long as its President. Under his guidance (1951-1969), the size of the College doubled, income quadrupled, the endowment tripled, and the school added five new buildings. The library, finished in 1968, was dedicated to Dr. Long.

After retiring in 1969, he did consulting work for the Development Office at Cornell University.

Any gifts in memory of Dr. Long should go to Wells College or the Sigma Phi Epsilon Educational Foundation (dedicated to either Illinois Alpha, Colorado Alpha, or as unrestricted).
